New England States in Detail

Compiled from United States Official Surveys
Official State Surveys and
original sources

Key maps will be found on map pages 2, 3, and 4. The maps following are in numerical order and follow consecutively. Explanation of signs on map pages 5 and 80.

The heavy black lines show the main roads, and while not always good throughout are the best for through routes.

The secondary roads are shown with parallel lines and are the best to use when making detours or for connections to main roads, or to reach places not given in the text matter in Automobile Green Book Vol. 1.

The roads shown with single lines are local in character and apt to be unsuited for automobile travel, particularly after heavy rains or in early spring or late autumn.

The figures on the sides show the adjoining maps.

For use in connection with
Automobile Green Book, Volume 1.

Official Guide Book of
The Automobile Legal Association,
6 Beacon St., Boston, Mass.
